

MY DREAM

By Lydia

My dream is to become a soldier. When I finish my studies I would like to help my country and protect By Grace against foe. I'm always ready for everything even death. When I grow up and become a soldier I would protect By Grace. I will bring for them fresh water and clothes. I will make sure they have a balanced diet every day. I will buy them a ranch and each and everybody will have their own room.

When I grow up and finish my studies, I will also make sure that my family – especially my brothers – are healthy and in a safe protected place. I'll first teach myself how to fight and even teach my brothers. I will always love and provide my family and By Grace. When I grow up, I will always be kind and loving. I will build a big home to help children who don't have anywhere to stay.
