

# THINGS THAT HAPPENED TO ME THIS YEAR

**By Lydia**

---

In school I read many storybooks, write notes revise my own poems. When I wake up in the morning I wear my uniform for school, then I read for a few minutes and go for tea. After having my breakfast, I tell my table mates about the stories what I've read about and discuss what the story is.

I went to Naivas with one of my classmates and we bought cups. Then when I came back I had my lunch meal and then I went downstairs to play with my other friends. This year I imagine things that make me smile and happy. When we are called for girls discussion we were given books and we talked about a girl called Christine who was named after a flower. This year my brother was given some new clothes and shoes. I ate so much until I was feeling full. I made a bangle that was pink, yellow and green and looked smart.
