

WHY AM I IN SCHOOL?

By Lydia

I am in school to help myself and learn for when I grow up. I don't want to see myself selling cabbage or borrowing money or other things. I don't want to see my brothers suffering, especially Ronnie because he is the last born and a loving brother of my heart. I want him to live a happy life and I want him to know that he has a person who can take care of him.

I'm also learning to fill my promise that I promised myself that whatever happens I'll work as hard as I can to help my family. I am also in school for the sake of other children. When I see children outside eating dirty roots, sleeping in dirty places, I usually feel pity for them but I have no choice but to only leave them there. Children usually suffer and that's why I learn in school, to help them.
